

Environmental Policy Statement

BROOKVENT recognises that good management includes all environmental matters and will ensure that environmental protection, the prevention of pollution and the enhancement of environmental performance are part of all decisions, policies and practices. We as manufacturers of passive and mechanical ventilation systems aim to improve air quality and promote healthy living standards in domestic and commercial properties by reducing condensation and mould.

While manufacturing our products we will strive to minimise our impact on the environment through waste minimisation, recycling and the use of sustainable production practices. The company shall endeavour to work towards the following objectives:

- Ensure a safe, healthy and sustainable work environment on which we have the least possible environmental impact.
- Provide for the setting and monitoring of environmental objectives and targets for the company, and secondly for the publication of the environmental objectives and targets by displaying in the company.
- Measure environmental performance by conducting regular environmental audits and assessments of compliance with the environmental policy, relevant environmental legislation and requirements of the company.
- Monitor progress and commit ourselves to continuous improvement in each area.
- Maintain efforts to achieve continual improvement of our environmental management system to enhance environmental performance of the company through compliance with the requirements of ISO14001:2015.
- Reserve natural resources, reduce waste, recycle materials and minimise energy use when possible
- Produce products that benefit our customers and will not be harmful to people or the environment.
- Avoid hazardous processes or materials where viable alternatives are available.
- Review current products and consider environmental effects when introducing new ones. We will stay abreast of new technologies and consider new business opportunities that are compatible with our environment.
- Provide information to interested parties on request about the contents of our products and not make misleading or exaggerated environmental claims.
- Be a responsibility neighbour, acting promptly to correct incidents or conditions that endanger health, safety or the environment.

Our environmental policy will be communicated to all employees and made available to members of the public on request.

We will ensure that our employees are aware of their environmental responsibilities and will provide appropriate training. This policy statement will be reviewed on a regular basis, at least annually to confirm its continuing suitability in assisting with the achievement of the company's objectives.

Copies of all relevant procedures are available to employees on request.
